Assessment of the Scale, Reach, Quality, and Cost
of Service Delivery High Impact Practices for Family Planning
 Readiness Assessment for Drug Shop Operators providing Family Planning in Nigeria

INSTRUCTIONS

This survey is for drug shop operators. If the primary person who runs the drug shop is not present, schedule an interview for a time when they will be available.

Eligibility Criteria:

- Participant is at least 18 years
- Has been trained to offer family planning services
- Participant is a Patent and Proprietary Medicine Vendor (PPMV) or a Community Pharmacist registered with the Pharmacy Council of Nigeria

Objectives:

- To evaluate the extent to which drug shops are ready to provide high quality family planning services.

Remember:

- *Ask one question at a time*
- *Do NOT read the response options, unless otherwise instructed.*
- *Circle or record only one response to each question, unless otherwise instructed.*

READ:

Read the following questions to the potential participants and have them respond. If any responses lead to '→ STOP', the client is not eligible to participate. Do not proceed with the survey. Thank the client for his/her time. Let him/her know that he/she has done nothing wrong, but you would like to interview people can provide the most relevant information for this study.

Good morning/afternoon/evening. Thank you for speaking with me today. My name is [state name] and I work with FHI 360 and Akena Associates. I would like to talk to you about the delivery of family planning services at this drug shop. This assessment is part of a study that is examining the scale, reach, quality, and cost of family planning service delivery as a high impact practices, sometimes referred to as HIPs, in Mozambique/Nepal/Uganda. Before I explain what is involved, I would first like to confirm that you are eligible to be in the study.
